Anthony Wayne United Indoor Training

Anthony Wayne United seeks to provide indoor training for those players who are interested in staying sharp and improving their skills. The winter training has been redesigned and will be overseen by AW United's Director of Player Development Brian Billings. The training curriculum is focused on building individual skills. All instructors will be licensed and experienced in offering fun, engaging sessions.

AW United's facility will offer two, turfed rooms for players. Players **MUST** wear flats or indoor shoes at every session. No Cleats! In order to keep each player involved and connected, there is an 8 player cap per session. This will allow each instructor to have their own room with a manageable amount of players. Make sure to indicate which session (day/time) you are signing up for. More sessions will be made available if the demand exists. We reserve the right to cancel sessions if the numbers are not adequate. Refunds will be issued if we cancel a session.

Weather Problems: All weather cancellations will be decided by 4:00 pm on the day of the session. Cancellations will be posted on the AW United website, http://www.awsoccer.org/default_united.asp. Interested parties can also call Brian Billings to inquire about cancellations at 419-344-3704.
